

Concrete & Mortar Colors In Retail Box Packaging

Description:

Integral coloring in small packages are produced from premium mineral oxide colors. Available in 16 color blends. Colors do not fade in sunlight and can be used inside or out. All colors are available from our standard Concrete & Mortar color chart, in consumer boxes for retail. Popular for Dealer's store retail to roof tile, small precast, Curbing contractors, masonry customers, and general on the job custom color needs.

Uses:

Pre-packaged Color blends are convenient because they allow small batches of material made for small portable mixing equipment as needed. Mostly used to mix from bagged products such as cements, mortars, stucco, Grouts and repair products. A popular alternative for Curbers and Precasters because they can turn predictable results from exact measured ingredients every time. Always measure color pigments by weight. Depending on the amount of material to be mixed, customers can save by purchasing smaller amounts according to their job needs.

Limitations:

Measuring water exactly and pigments by weight will result in good consistent color. Using the same exact amounts of all ingredients for each batch will always produce predictable results. The more water used for workability will lighten color, excess water will increase bleeding and produce efflorescence. Use a minimum of 3 Cu/ft. mixing equipment to consolidate ingredients. Although possible to add 1/2 of all ingredients, normally is not advisable. Do not add water to the surface to re-temper or finish. Most colors should not be added to more than 10% to the total cement used.

Packaging:

Regular consumer boxes in 3, 5 & 25# for retail in 16 standard blended iron oxide colors.

Compliance, Clean-up & Safety:

All colors meet ASTM- C-979 for Iron oxide pigments. Wash tools and equipment with soapy water. Use skin and eye protection. Wash skin with soap and water. Avoid creating and breathing dust. Wash eyes with water. Color pigments are not considered a hazardous substance. Dispose of waste responsibly.
